

WEEKLY SPOTLIGHT

October 27, 2022

TWO VACCINES. ONE VISIT.

PROMOTING THE COADMINISTRATION FLU AND COVID-19 BOOSTERS

Fight the Flu. Get Vaccinated!

The California Department of Public Health (CDPH) has developed social media and website assets to share with your communities to spread the word about fighting the flu. This material is downloadable and shareable. Materials also include visuals and messaging on the coadministration of COVID-19 vaccines with flu vaccines in English and Spanish.

[Access the "Fight the Flu. Get Vaccinated!" Materials](#)

It is safe and convenient to get the flu vaccine at the same time as other vaccines, including COVID-19 vaccines and boosters.

Sample Messaging:

- Save yourself the extra trip. When you get your flu vaccine, ask your doctor or pharmacist about other vaccines you may need, including COVID-19 vaccines and boosters. It is safe AND convenient to get them at the same visit.
- Protect yourself from getting severely sick from flu and COVID-19! It is safe to receive your COVID-19 vaccines and boosters with your annual flu vaccine.

If you are 5 years of age or older and have completed your primary series of COVID-19, talk to your doctor or pharmacist about getting the updated bivalent booster for extra protection.

Get Your Flu and COVID-19 Booster Shots Today

Annual flu vaccination is recommended for everyone six months of age and older. To schedule your flu and COVID-19 booster appointments today, visit [MyTurn.ca.gov](https://www.cdph.ca.gov/Programs/OPA/Pages/Communications-Toolkits/my-turn-flu.aspx#).

For more information and resources on the coadministration of COVID-19 and Flu vaccines visit CDC's [Getting a Flu Vaccine and a COVID-19 Vaccine at the Same Time](#) webpage.
